ABOUT ME

Enthusiastic and detail-oriented Full Stack Developer (Laravel) with hands-on experience in real-time projects through internships. Strong foundation in Java, SQL, and modern web technologies. Skilled in building CRUD-based applications, managing backend logic, and implementing responsive UIs. A quick learner with excellent problem-solving and collaboration skills.

EXPERIENCE

Internship

RectoQ Software
Solution, Bengaluru

Full Stack Developer Intern

- Worked on real-time web projects using Laravel, HTML/CSS/JS, and Blade.
- Built full-stack features and REST APIs following MVC architecture.
- Used GitHub Desktop for version control and team collaboration.
- Participated in debugging, testing, deployment, and hosting Laravel projects on live servers.

VR Shoft Tech, Salem

Web Development Intern

- Gained basic understanding of HTML, CSS, and JavaScript for front-end development.
- Learned to structure web pages and apply styling and interactivity.
- Assisted in minor UI updates and code testing under mentor supervision.

PROJECT

Task Management App

- Built with Laravel, featuring separate Admin and Employee panels.
- Employees can start, update, and submit tasks for review.
- Admin can track task status, redo count, and completions.
- Used CRUD, role-based access, and MVC structure.

Student Details Management System

- Created a Laravel-based app to manage student records using CRUD operations.
- Managed student info with add/edit/view/delete features.
- Used Blade, routes, and MVC structure.

Mobile Product E-commerce Website

- Developed an e-commerce site for mobile products using Laravel and CRUD operations.
- Added features like product listing, details view, add/edit/delete products.
- Used Blade templates, routes, and MVC pattern for clean structure.
